

Truth and Way Ministries University  
Church History II

This course presents an overview of the major movements which have shaped the Church as it exists today. We will observe the sovereignty of God in the building of His Church, and the fight for its purification which has been fought since the days of the reformation. How this plays out today, along with an understanding of the historical foundations involved is a key result of this course.

**Required Text:** *A Glorious Institution: The Church in History* by Stanford E. Murrell
